How to find Anteater Express

Do you want to know how to get to class? Anteater Express has maps and schedules on our website for every route, as well as SMS stop predictions for each bus stop, and mobile apps. When using our digital resources, you can plan the most efficient route to your classes or any other locations you'd like to visit on our routes.

1) Online GPS

On the Anteater Express website select the "Routes" page and select a desired route from the list. Go to the "Live Tracking" tab and active buses on the route will appear on the map.

Official Apps Available

2) Mobile Apps

Access our mobile apps from www.shuttle.uci.edu. The apps provide live vehicle tracking, bus arrival predictions, schedules, maps, and other resources.

3) SMS Stop Prediction

SMS Stop Prediction is an automated text messaging feature that approximates the arrival of the next bus. When at an Anteater Express bus stop, locate the SMS Stop # on the posted timetable.

Text 41411 and type "ucirvine X" where X is the SMS stop number. (Example: ucirvine 501)

You'll get the next estimated arrival time for that stop based on the time the text message was sent.

2016-2017
