## ANTEATER EXPRESS IS GROWING!

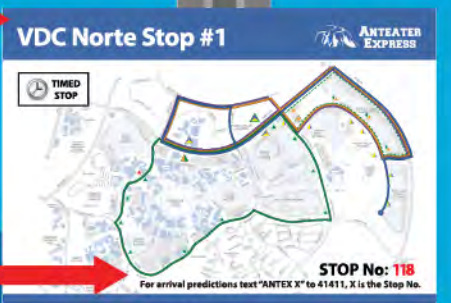

Each year brings more students and new housing developments. This means that routes and stops can change according to demand, construction, traffic, and funding. While we do our best to keep the maps and schedules up to date, last minute changes can happen.

**RIDERS' GUIDE:** For riders that are new to Anteater Express, here are a few tips to maximize your experience with our service:

- While waiting for the bus, stand on the sidewalk a few feet back from the street – never stand in the street or sit on the curb.
- If boarding with a bicycle, use the folding rack on the front of the bus. Follow the instructions on the rack and make sure the bicycle is secured with the wheel hook before boarding. Alert the driver if you need assistance.
- The seats nearest the driver are designated for persons with disabilities and for seniors. If you choose to sit in these seats, please be prepared to move if needed.
- For your safety, always remain seated. If no seats are available, please hold onto a handrail or hand-strap when the bus is in motion.
- If you need to cross the street after exiting the bus, use designated crosswalks. Wait until the bus leaves the stop and look both ways before starting to cross the street -- so that you have a clear view of the road and drivers have a clear view of you while you are crossing.

You are at this stop.

Text "ANTEX" to this number for the next bus arrival time.
